JENNY

Campus Administrator
This Campus

Dear jenny barzaga,

Subject: Proposal for the Development of an Income-Generating Project Management System

I am writing to formally propose the development of an **Income-Generating Project Management System (IGPMS)** for the Cavite State University – Imus Campus, specifically designed to cater to the needs of the Central Student Government (CSG) organization.

This proposed system aims to streamline the management, monitoring, and reporting of income-generating projects initiated by the CSG. The IGPMS will provide a centralized digital platform that will enhance operational efficiency, promote transparency, and ensure accurate record-keeping.
